mindray

Greater image clarity and exceptional intelligence all packed into an ultra-light, compact laptop. The Mindray ME8 point-of-care ultrasound system combines best-in-class image quality with an intuitive user experience to help ensure a reliable and efficient diagnosis. Suitable for critical care, anaesthesia and emergency departments.

Mindray's pioneering ZST+ virtual beamforming technology gives clinicians immensely powerful image acquisition and processing capabilities, resulting in high contrast resolution, excellent uniformity and reduced motion artefacts. The ME8 is one of the first-ever laptop-based systems to be powered by ZST+, supporting fast and accurate diagnosis through reliable imaging in a compact, portable design.
