BeneVision N1

3-in-1 Solution

mindray

N1

Handwritten text in a cursive script, appearing to be a list or notes, with some characters resembling 'o', 'l', 'q', and 'o'.

One Monitor | Multiple Solutions

1

Versatile Bedside Monitor

Practical yet sophisticated with an uncluttered view of patient information, N1 paired with the 22" display ideally meets the bedside monitoring needs of multiple hospital departments.

2

Compact Transport Monitor

Simply slide the N1 from the N-Series module bay and it automatically converts to a wireless transport monitor immediately connecting with your wireless network, maintaining continuity of patient data with the central monitoring station/EMR.

3

Robust Multi-Parameter Module

Upon completing your patient's transport, insert the N1 into the integrated module bay of any N-Series bedside monitor and you're up and running with no gaps in data. The full-featured N1 multi-parameter module provides robust monitoring capabilities to suit acuity levels throughout the hospital.

healthcare within reach

Every day, healthcare professionals are working to improve the lives of their patients. They are using the latest technology and techniques to diagnose and treat a wide range of conditions. They are also working to make sure that their patients have the best possible experience. This is the heart of healthcare: caring for people and helping them live better lives.

At Mindray, we understand the challenges that healthcare professionals face. We are committed to providing them with the tools and solutions they need to succeed. Our products are designed to be easy to use, reliable, and of high quality. We work closely with our customers to make sure that our products meet their needs and that they are getting the most out of them.

Mindray North America is headquartered in Mahwah, New Jersey. Our Ultrasound Innovation Center is located in San Jose, California with additional facilities in Nashville, Tennessee and Seattle, Washington.
